the building of a Dispensary at Mirle, but states that this and other dispensaries that are required cannot be opened, unless the Hospital Asstt. staff is increased.

The Senior Surgeon enunciates in this Connection a principle that should be kept in view, and that is, "7 miles is the most that any subject of H.H. should be obliged to travel to secure medical help." The dispensary that is nearest to Mirle is Yedatore Despy, which is stated to be 14 miles off.

Subd ~~with draft~~. The question of increasing the strength of the Hospital Assistants has to be settled, before an estimate of the probable cost of the Dispensary building can be ascertained from the Dr Report of the Senior Surgeon as per draft put up.

There is a dispensary at Salipram. † Salipram is about 5 miles from Kurlé. Kurlé is about 8 miles from Gaaroé

BK 2.3.1905

I beg to inform you that there is a Dispensary at Salipram which is distant 4 & ½ miles from Kurle. The road is fit for carts. The distance between Kurle and Gaaroe cannot be made less. There is no difficulty owing to the Chemmu Channel which is a large agricultural village. Hence there is very much traffic.

Sir,

With reference to office Memorandum No.R.6025/Mis.542-04-1 dated 10-1-05 anent the opening of a Dispensary at Mirle village in the Yedatore Taluk, I have the honor to state that I strongly recommend the building of a pispensary, as the nearest dispensary is 14 miles off, a very long way for a Hospital Assistant to travel supposing the Hospital Assistant yedatore were ordered to Mirle once a week. But unless the Hospital Assistant staff is increased, this and several other dispensaries that are required cannot be opened - 7 miles is the most that any subject of His Highness should be obliged to travel to secure medical help.

This principle should be constantly kept in mind and as funds admit, efforts ought to be made to carry it to realization.

I have the honor to be,

Sir,

Your most obedient servant,
